You decide how you want your van to be delivered when you order from Kleyn Vans

Each Kleyn Vans vehicle comes supplied with our TÜV certified inspection. This means we visually check and test drive every single vehicle, also on the motorway. You will always be able to access all relevant reports on our website. Every vehicle will have the **Basic** delivery package without any additional costs, which this inspection forms part of.

If we subsequently assess the vehicle with 3 or more stars as a result of this inspection, you can then opt for the **Standard** delivery package. The vehicle will then undergo an MOT test and will be serviced before delivery.

You can opt for extra reassurance with our **Safe** delivery package. This means the vehicle will be supplied with an extensive guarantee, providing you with access to the services of many local garages.

Our **Class** delivery package will provide you with all of the above, plus an additional guarantee of being able to exchange the vehicle if you happen to change your mind. The vehicle will also be delivered with a full tank of fuel and you will be entitled to free and suitable replacement transport at our workshop for life.

Unique:

You have the option of extending the standard 3 month guarantee to 1 or even 2 years with both the **Safe** and **Class** delivery packages! You will need to choose this at the start.

 - ✓ - Odometer to: 140.000km - 60%
 - ✓ - Odometer from: 140.000km - 40%

EXPLANATION OF DELIVERY PACKAGES

TÜV Nord Occasion Check

A thorough inspection based on 20 important points, including the power train, tyres and cab. This has all been recorded in detail and in accordance with TÜV Nord's inspection rules. Each vehicle is checked on these points and subjected to a test drive, including the motorway.

MOT

The MOT (Ministry of Transport test car inspection) is a legally required inspection in Europe to promote road safety and protect the environment. The MOT is a snapshot in time. This inspection does not guarantee that your vehicle will remain safe for the rest of the year and that you will not need maintenance for a year. Regular vehicle inspections and services therefore remain important. The MOT does not replace a service. That's why we combine the MOT and services in our delivery packages.

Service

If you opt for a service, the vehicle will always be checked in our workshop for the following points, so your new van can safely hit the road for the first year or the first 20,000 km (whichever comes first).

- ✔ Oil and oil filter
- ✔ Air filter check, clean and replacement if necessary
- ✔ Full AdBlue if applicable

We will also examine each vehicle's age, mileage and factory regulations to ascertain which additional work is required to bring the vehicle up to an appropriate maintenance level. These activities will therefore only be carried out where necessary.

Guarantee

We sell used vehicles. Future faults or defects are not (always) revealed during a visual inspection, test drive, service and MOT. You can opt for an additional guarantee* with the Safe or Class delivery package in order to get more certainty. You will need to pay extra for this. Our vehicles are supplied without a guarantee with the Basic or Standard delivery package. You will bear the risk of any faults or defects yourself.

*Carefully read through the guarantee conditions. Not everything is covered in the guarantee conditions.

Exchange guarantee with the Class package - The vehicle can be changed in the first month (up to a maximum of 2,500 km) if it's not to your liking!
